ANIRBAN DUTTA

Kolkata, West Bengal | +91 9748781285 | anirban311004@gmail.com
LinkedIn: linkedin.com/in/anirban-dutta-048670253 | GitHub: github.com/Anirban31Dutta

TECHNICAL SKILLS

Languages Java, Python, C, JavaScript
Frontend HTML, CSS, React.js
Backend Node.js, Express.js, REST APIs
Databases MySQL, MongoDB
AI / ML NLP, RAG, Machine Learning, Embeddings, Image Processing
Tools Git, GitHub, VS Code

PROJECTS

CareerMatch — AI-Powered Job & Resume Matching Platform

React.js | Node.js | Express.js | MongoDB | AI/NLP
GitHub Link: https://github.com/Anirban31Dutta/Job-Portal-And-Resume-Matcher

- Developed a full-stack job platform for candidate profiles, job listings, applications, and resume-based matching.
- Implemented resume processing and skill matching to identify compatibility between candidate profiles and job descriptions.
- Built REST APIs with authentication and separate candidate/recruiter workflows for managing jobs and applications.
- Designed a responsive React frontend and integrated MongoDB for persistent application and user data.

RAG Document Question Answering System

Python | RAG | LLM | Embeddings | Vector Database
GitHub Link: https://github.com/Anirban31Dutta/RAG-Document-Question-Answering-System

- Built a Retrieval-Augmented Generation system that answers questions using information from uploaded documents.
- Implemented document processing, chunking, vector embeddings, and semantic retrieval to provide relevant context.
- Connected retrieved context with a language model to generate document-grounded responses.
- Structured the system to support question answering over user-provided documents.

Image & Text-Based Plagiarism Detection Tool

Python | NLP | Image Processing | Flask
GitHub Link: https://github.com/Anirban31Dutta/Image-and-Text-Based-Plagiarism-Detection-Tool

- Developed a plagiarism detection application capable of analyzing both textual and image-based content.
- Implemented text preprocessing and similarity analysis to identify potentially duplicated or reused content.
- Applied image processing techniques to compare visual content and detect image similarities.
- Built a Flask-based web interface for submitting content and presenting plagiarism analysis.

EDUCATION

B.Tech in Computer Science Engineering — Sharda University | 2022–2026 | CGPA: 7.572

Class XII — Kendriya Vidyalaya Barrackpore (Army), Kolkata | 2022 | CBSE: 70.8%

Class X — Kendriya Vidyalaya Barrackpore (Army), Kolkata | 2020 | CBSE: 70%

CERTIFICATIONS

- Oracle — Java Course
- Udemy — Full Stack Web Development
- Sharda University — Summer Bootcamp on MERN Stack
